SDC 20

BY Developers FOR Developers

Storage Developer Conference
September 22-23, 2020

Unified heterogeneous storage monitoring Is delfin a way forward ?

Najmudheen
Huawei Technologies, SODA foundation
&
MASANORI, ITOH
Toyota Motors, SODA foundation

Agenda

- Heterogeneous Infrastructure - Challenges
- Need for Unified Monitoring and Alerting
- SODA
  - an open source unified autonomous data framework that connects data end to end
- Delfin
  - A SODA project for Monitoring and Alerting

Need for Unified Monitoring and Alerting

- Capacity trend analysis
- Capacity purpose analysis
- Service level optimization
- Spot performance bottle necks
- Unified Alert source
